Massachusetts Environmental Justice Assistance Network (MEJAN) Mission Statement

The purpose of the MEJAN is (1) To provide *pro bono* professional assistance on environmental issues to traditionally underrepresented communities such as lower-income communities and communities of color by harnessing the resources of the legal community, environmental and public health professionals, nonprofit organizations and Massachusetts' colleges and universities; and (2) To promote the empowerment of partner communities by facilitating their participation in decisions affecting their health, safety, environment, culture and quality of life.

The MEJAN accomplishes these objectives by acting as a clearinghouse to match community groups in need of assistance with the professional services of lawyers, scientists and consultants.

Full Name: Organization/Company/Institution (if any):	Office Address:
Referred to MEJAN by:
